PRODUCT BULLETIN

ISSUE/DATE:	March 04, 2015	BULLETIN NUMBER:	AQ030415
SUBJECT:	Lamp Socket Lead	PRODUCT LINE:	Aquafine
TOPIC:	SINGLE ENDED LAMP SOCKET LEAD REVISION CHANGE		

OVERVIEW / DESCRIPTION

Aquafine Corporation has qualified a new wave spring to replace the old Delrin washer inside the single ended lamp socket assembly. This change is a part of continuous improvement and product enhancement with no change to fit, form and function. The Delrin washer may deteriorate over the time but the new wave washer will not deteriorate as it is made of stainless steel material.

DETAILS

The new lamp socket will be offered with wave spring on all new equipment orders after March 04, 2015. This change has no effects on existing installed Delrin washers. The new wave spring is backward compatible and can be purchased as an upgrade or to replace Delrin washer.

Please note that this wave spring P/N 47597 is a direct replacement of existing Delrin washer P/N 47518.

Aquafine will no longer sell Delrin washer P/N 47518. Contact your Sales or Customer Service Representative for more information.

Replacement Lamp Socket Assembly

P/N 47520-Series (dependent upon length of lamp socket wire)
